TRAFFIC ENGINEERING & CONTROL

INDEX TO VOLUME 6

May, 1964—April, 1965

	Month	Page
A		
Aerial Photography aids traffic study, P. F. McCarthy	Oct.	358
Amsterdam's land use-traffic study, M. 't Hart and Alan Black	Aug.	222
An integrated transport system—Leicester Traffic Plan, W. Konrad Smigielski	Feb.	610
Athens Area Transportation Study, Odysseus Papadakis	Sept.	296
Automatic parking control, J. Brierley	Nov.	446
B		
Britain's new signs and markings, J. T. Duff	Jan.	556
Buchanan, Implementing—Problem of social choice, Nathaniel Lichfield	Dec.	498
Buchanan, Local government must develop regionally to implement, T. Dan. Smith	June	96
Buchanan Report and research, Sir William Glanville	May	33
Buchanan—The first stage, Ernest Marples	May	30
Buchanan, The motorist and, A. C. Durie	June	98
C		
Car ownership impact on central area traffic, P. H. Bendtsen	Aug.	216
Comparison of road user behaviour at panda, zebra and light-controlled crossings, A. C. Mackie and G. D. Jacobs	Apr.	714
Computer simulation of traffic behaviour through three signals, W. D. Wätjen	Feb.	623
Conflict points at intersections, M. Peleg	June	109
Courses for traffic engineers	Sept.	317
D		
Design vehicle, R. M. Newland	June	101
Development of motorways, H. N. Ginns	Sept.	278
Driver response to speed signs, Robert Herman and Richard Rothery	July	160
Drivers understanding of road traffic signs, P. G. Gray	May	49
E		
Editorial opinion—Our Fourth Anniversary	May	27
Lessons of Rome	June	93
Charging for road use	July	157
Travel and traffic in London	Aug.	209
Traffic Engineering Study Week	Sept.	275
Night Visibility	Oct.	355
Study Week aftermath	Nov.	419
America revisited	Dec.	489
Transportation 1965	Jan.	553
Ministerial guidance	Feb.	607
Transport co-ordination	Mar.	665
G. L. C. takes over	Apr.	711
Environmental traffic standards, P. Jordan, G. H. Vulkan and J. P. MacBryde	Apr.	719
Evaluation of time saved in the running of goods vehicles, A. G. Boorman	Apr.	733
Experiment on saturation flow of right-turning vehicles at traffic signals, F. V. Webster	Nov.	427
G		
Greater Glasgow Transportation Study, Thomas J. Lambie	Feb.	618
I		
Illuminated warning signs	Dec.	523
Implementing Buchanan—Problem of social choice, Nathaniel Lichfield	Dec.	498
Instruments for traffic engineers	Apr.	738
J		
Journey times by car and bus in Central London, E. M. Holroyd and D. A. Scraggs	July	169
L		
Legibility of signs with green backgrounds, A. W. Christie and G. Hirst	Mar.	672
Leicester Traffic Plan—An integrated transport system, W. Konrad Smigielski	Feb.	610
Lighting Section:		
Public lighting developments, Granville Berry	May	55
Stockholm Symposium, J. T. Grundy	June	122
America's new Code of Practice, Paul C. Box and Warren Edman	June	123
Lighting at Rome, Bruno Wehner	July	185
Engineers' contribution to safety, Philip Hartill	Aug.	241
Lighting research	Sept.	313
Crystal gazing by A.P.L.E. President, T. M. Lappin	Oct.	379
Lighting of traffic signs and control devices, J. A. Reid (1)	Nov.	448
(2)	Dec.	519
Lighting outside built-up areas, E. Asmussen	Jan.	579
Traffic control by illuminated symbols, John T. Grundy	Feb.	631
Trunk road lighting in rural areas, A. Wilcock	Mar.	685
Australia's revised traffic routes lighting code, H. G. Fallon	Apr.	741
M		
Measurement of directional flows at roundabouts, P. van Hoffen	Mar.	674
Method for simulating traffic conditions at roundabouts, P. van Hoffen	July	166
Motorway traffic supervision system, E. Parker	Jan.	562
Motorways, development of, H. N. Ginns	Sept.	278
Multiple pen recorders for traffic flow investigations, A. Dockerty	Aug.	228
N		
Nomogram for solution of the R.R.L. traffic signal delay formula, A. C. Dick	June	106
P		
Palermo Conference—Road traffic technique	June	121
Parking control, automatic, J. Brierley	Nov.	446
Parking control in German cities, E. Radicke	Oct.	375
Parking systems, J. Brierley	June	113
People and the motor car, Geoffrey Crow	Jan.	568
PIARC 12th World Roads Congress:		
—Roads and their traffic, C. Guzzanti	June	116
—Economic problems, Claude Abraham	June	118
—Parking services and edge marking, Bruno Wehner	July	174
—Edge marking and guard rails	July	176
—Road aesthetic problems	July	178
Ponteland Survey—Traffic generated by households: peak period, T. E. H. Williams and D. M. Robertson	Mar.	668
—Accuracy of home questionnaire surveys, G. G. Dobson	Apr.	723
Pre-Signal, The, P. B. Ellson	Jan.	559
R		
Regional development agencies, Sir William Holford	May	36
Road heating, E. F. Humphries	Mar.	682
Road research in the Soviet Union	Aug.	236
Roundabouts, Measurement for directional flows at, R. van Hoffen	Mar.	674
Roundabouts, Method for simulating traffic conditions at, P. van Hoffen	July	166

	Month	Page
S		
Saturation flow of right-turning vehicles at traffic signals, Experiment on, F. V. Webster	Nov.	427
Services for motorists, Wilbur S. Smith	Sept.	287
Signs and markings, Britain's new, J. T. Duff	Jan.	556
Signs with green backgrounds, Legibility of, A. W. Christie and G. Hirst	Mar.	672
Speed signs, Driver response to, Robert Herman and Richard Rothery	July	160
Stockholm Symposium, J. T. Grundy	June	122
Study Week in Traffic Engineering:		
—Techniques for improving traffic flow, P. Schmarsel	Oct.	361
—Interaction of traffic and land use in urban areas, (1) S. Goldberg	Nov.	439
(2) M. Jenni	Nov.	443
—Interaction of traffic and land use in long range urban planning, J. Douglas Carroll	Dec.	506
—Road networks in residential areas and small towns, Bruno Wehner	Dec.	508
—Methods available to reduce the number of road casualties, R. J. Smeed	Dec.	509
T		
The motorist and Buchanan, A. C. Durie	June	98
The old university town of Heidelberg also has its traffic problems, Nans Helm	Aug.	212
Tidal flow working on Albert Bridge, S. W. Jennings	Dec.	501
To implement Buchanan local government must develop regionally, T. Dan Smith	June	96
Town and traffic planning in Munich, H. Jensen	Oct.	365
Traffic and urban activities, S. Kaljuski	Apr.	727
Traffic assignment to a road network, Joyce Almond	Feb.	616
Traffic engineering research at Birmingham University:		
—Area traffic control	Aug.	233
—Traffic assignment—The 'modal split' between public and private transport	Aug.	235
Traffic engineers, Courses for	Sept.	317
Traffic in Towns—The critics answered, Colin Buchanan	May	39
Traffic planning in Munich, Town and, H. Jensen	Oct.	365
Traffic problem in towns, R. J. Smeed (1)	Oct.	369
(2)	Nov.	435
Traffic signal delay formula, A nomogram for solution of the R.R.L., A. C. Dick	June	106
Traffic Research 1963	Sept.	306
Traffic research at the National Swedish Road Research Institute, Stig Edholm	Sept.	290
Traffic research, University of New South Wales, W. R. Blunden	Sept.	282
Traffic signs, Drivers' understanding of road, P. G. Gray	May	49
Traffic study, Aerial photography aids, P. F. McCarthy	Oct.	358
Traffic study, Amsterdam's land-use, M. 't Hart and Alan Black	Aug.	222
Traffic study and research, M. Frybourg	Sept.	301
Traffic survey, North Shields town centre. Tyneside conurbation study, D. M. O'Herlihy	Nov.	431
Transportation Engineering Group:		
—Safety Fences, R. L. Moore and V. J. Jehu	July	180
—Urban road systems—The Buchanan approach, Geoffrey Crow	Dec.	513
—Pricing use of congested roads, G. J. Roth	Jan.	572
—Growth of car ownership and redevelopment of public transport. J. D. C. Churchill	Jan.	574
—Traffic control—Learning from emergencies, A. G. P. Way	Feb.	627
—Operational research as applied to transportation, P. I. Welding	Apr.	735
Transportation studies—Criteria for success, Louis E. Keefer	May	46
Transportation study, Athens area, Odysseus Papadakis	Sept.	296
Transportation study, Greater Glasgow, Thomas J. Lambie	Feb.	618
Tunnels in the Netherlands, M. de Bussy	Oct.	372
Tyneside conurbation study—North Shields town centre traffic survey, D. M. O'Herlihy	Nov.	431
U		
University of New South Wales traffic research, W. R. Blunden	Sept.	282
Urban traffic planning (5) Modal split and assignment, John M. Harwood and Vincent Miller	Aug.	231
W		
Worcester Development Study:		
—(1) Basis of highway design, R. M. Newland	Nov.	422
—(2) Urban road location, R. M. Newland	Dec.	492
—(3) Parking requirements, B. D. Richardson	Jan.	564
Y		
Yardsticks for Britain's integrated road system, W. Fisher Cassie	May	43

INDEX TO AUTHORS

	Month	Page
Abraham, Claude—Economic problems	June	118
Almond, Joyce—Traffic assignment to a road network	Feb.	616
Asmussen, E.—Lighting outside built-up areas	Jan	579
Bendtsen, P. H.—Car ownership impact on central area traffic	Aug.	216
Berry, Granville—Public lighting developments	May	55
Blunden, W. R.—University of New South Wales traffic research	Sept.	282
Boorman, A. G.—Evaluation of time saved in the running of good vehicles	Apr.	733
Box, Paul C. and Warren Edman—America's new Code of Practice	June	123
Brierley, John—Parking systems	June	113
—Automatic parking control	Nov.	446
Buchanan, Colin—Traffic in Towns—The critics answered	May	39
de Bussy, M.—Tunnels in the Netherlands	Oct.	372
Carroll, Jr. J. Douglas—Interaction of traffic and land use in long range urban planning	Dec.	506
Cassie, W. Fisher—Yardsticks for Britain's integrated road system	May	43
Christie, A. W. and Hirst, G.—Legibility of signs with green backgrounds	Mar.	672
Churchill, J. D. C.—Growth of car ownership and redevelopment of public transport	Jan.	574
Crow, Geoffrey—Urban road systems—the Buchanan approach	Dec.	513
—People and the motor car	Jan.	568
Dick, A. C.—A nomogram for solution of the R.R.L. traffic signal delay formula	June	106
Dobson, G. G.—Ponteland Survey—Accuracy of home questionnaire surveys	Apr.	723
